PROFESSIONAL SUMMARY

Entry-level Data & Business Analytics professional with a B.Tech in AI & Data Science (CGPA 8.17), skilled in SQL, Power BI (DAX), Python, and Databricks. Built data pipelines, star-schema models, and dashboards on 787K+ job postings, 99K e-commerce orders, and multi-year sales data, uncovering insights such as a 21% US pay premium for ML Engineers and 141% YoY sales growth. Eager to apply analytical and problem-solving skills across data, BI, and SQL-focused roles.

TECHNICAL SKILLS

- **Databases & Querying:** SQL (MySQL), Relational Database Design, Schema Normalization, Databricks Delta Lake
- **Business Intelligence:** Power BI (DAX, Power Query, Star Schema), Databricks AI/BI, Interactive Dashboards
- **Programming & Analysis:** Python (Pandas, NumPy), PySpark, Data Visualization (Matplotlib, Seaborn)
- **ETL & Data Engineering:** Medallion Architecture, AWS S3 Ingestion, ETL/ELT Pipelines, Automated Data Workflows
- **Tools & Environments:** Git & GitHub, Advanced Excel (Pivot Tables, XLOOKUP), VS Code, Jupyter Notebook

PROJECTS

Job Market Analysis | SQL, Python, Power BI | GitHub Repository | **September 2026**

- Built an automated SQL cleaning pipeline (CTEs, window functions) on 787K+ postings, removing 1.7% invalid records.
- Standardized titles into 10 role categories and built a Power BI dashboard on demand, salary, skills, and region.
- Found SQL in 49% of postings and a 21% US pay premium for ML Engineers, revealing top-paying roles and skills.

AtliQon BI 360 Sales Analytics | Databricks, PySpark, AWS S3, SQL | GitHub Repository | **September 2026**

- Built a Bronze/Silver/Gold Medallion pipeline on Databricks and AWS S3, producing Gold-layer star schemas.
- Developed a Databricks AI/BI dashboard with 18 interactive widgets, filters, and multi-period trend tracking.
- Uncovered 141% YoY growth and cricket-led revenue; flagged 33% of sales concentrated in the top 5 customers.

Brazilian E-Commerce BI Dashboard | Power BI, DAX, Query Editor, Data Modeling | **August 2026**

- Modeled 99K orders (112K+ items) in a star schema with 50+ DAX measures and year-to-weekday drill-through.
- Found 6.8% of orders delivered late, with SP and RJ making up 51% of late orders, pinpointing logistics fixes.
- Found health & beauty drives 9.3% of revenue, tracked via YoY revenue, AOV, and late-delivery rate KPIs.

EXPERIENCE

AI/ML Summer Intern | AK Info-Park — **June 2025 – July 2025**

- Built Python (Pandas) preprocessing workflows for a real estate pricing model, cleaning raw data and removing anomalies.
- Prepared features and evaluated regression and neural-network models for property price prediction, reaching an R^2 - 0.95

Data & Automation Intern | G-TEC Computer Education — **May 2024 – June 2024**

- Built and deployed a Python Telegram bot to automate document storage and retrieval workflows.
- Organized file and folder workflows, cutting manual document processing time by approximately 40%.

CERTIFICATIONS & TRAINING

Data Analytics (Grade A) | SLA Institute — **September 2026**

Completed an intensive, practical industry training program covering end-to-end data analytics workflows, database querying, business intelligence, and reporting.

Data Analysis with Python (DA0101EN) | IBM Developer Skills Network | Verify Credential — **July 2026**

Covered data wrangling, exploratory data analysis (EDA), statistical modeling, and data visualization utilizing Python (Pandas, NumPy, Matplotlib, Seaborn).

EDUCATION

Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science — **2022 – 2026**

Loyola Institute of Technology and Science | Kaniyakumari | CGPA: 8.17 / 10

Higher Secondary (Science, IT Stream) — **2021 – 2022**

RC Patel English Medium Jr. College | Maharashtra | Percentage: 88.50%

LANGUAGES

English (Fluent) | **Tamil** (Native) | **Hindi** (Conversational) | **Marathi** (Conversational)
